I have 5+ years of work experience including working with start-ups to international clients. As a consultant I have worked on analytics consultation, automation, workspace reporting, visualization, data classification, testing (automated and manual) implementation and honed my ability to align towards customer KPI's and goals. I cross-skill and upskill myself to gather new information and bring out the best in my work.

Experience

JUNE 2021 – PRESENT

Senior Consultant/Luminescent Digital (ServicePlan Group Germany), Mumbai, India

- Assisting with enablement & desk-side coaching/training to BMW's partners (Valtech, Oliver, Juice, Accenture, Deloitte, Capgemini, Mindtree and many more..) on reports, ad-hoc queries, analytics strategies, cost optimization, and future roadmaps.
- End to end onboarding and setting up the scalable standards for BMW, MINI & Motorrad and adobe analytics architecture of additional component websites (Nordics, UK, ZA, Special Sales, Stock Locators, Sales Platforms, and many more..).
- Actively managing the team of young consultants to ensure the smoother delivery of leading KPIs on time.
- Supporting project estimation process with key contributors to help define scope and prepare statement of work, including tasks, deliverables, milestones, resources, and estimated costs.
- Subject matter expert in the areas of vendor engagement, stakeholder management and project management involving the partners of more than 30 countries.
- Created an automation tool to create standard driven datalayer and deploy adobe analytics in parallel on customer website and saved more than 300,000+ Euros in 2021 and 450,000+ Euros in 2022.

Tools and Services: Adobe Analytics, Adobe Launch, SQL, Tableau, TRACY, Excel, Powerpoint.
